

Endeavors Review

Welcome the Endeavors Review.

This is the month-in-review newsletter for Huron Academic Endeavors Cooperative Center. Enjoy!

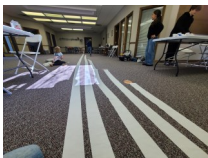

Donuts and Science: A STEM Club for All Students

Take a delicious bite out of science! HAE has organized a new student club—Donuts and Science! Students and parents collaborate to create themed science projects, attend field trips,

and enjoy guest presentations. The best part—there are donuts for everyone!

In January, we are studying animal adaptations with the MSU 4H office and having an animal show with Timber Creek Petting Farm!

Thanks to the generosity of local sponsors: Stephenson Electric, Michigan Metal Coatings and Black River Manufacturing, we are able to extend our Donuts and Science Club to the public! Please join us! Go to our website homepage: www.huroncooperative.org to register!

Special points of interest

- New student science club
- HAE says thank you for our blessings!
- SC4 Experience Center field trip
- Successful campus tour and new student registrations
- December/January look-ahead
- Contact us!

HAE is Thankful!

HAE wants to say THANK YOU for our blessings. Not only is this great hybrid education center really catching fire throughout our Blue Water area community, but we've had so many great donations to our organization as a result.

In just the past month, we've had furniture donated, tubs of children's toys, books, outdoor play equipment, classroom chairs and science lab equipment. Our campus is full of great students and resources for them and our teachers! We can't believe the blessings.

If you have any donations that you think HAE could use feel free to reach out to admin@huroncoop.org! We'll make arrangements to retrieve your donations! Thank you!

Another Successful Campus Tour!

HAE has continued to receive inquiries for enrollment multiple times per week since classes started in September. We opened our campus to monthly campus tours in an effort to continually make ourselves available to interested families!

At our campus tour in November, more than 20 people attended!

More than 10 students will be joining for classes in January!

Whew! Welcome everyone!

A Great Experience at the Experience Center!

November's field trip was a STEM lab experience with the SC4 Experience Center! Our students made hover crafts, aluminum foil boats, built with Legos, made homemade glow-in-the dark bouncy balls and explored the dinosaurs! There was so much to see in the Michigan bird exhibit room. And we got our

pictures taken in front a green screen! And the kids loved the baby sturgeon that is currently being raised by the SC4 team. Thanks for the great time!

A Look Ahead...

In December, we are looking forward to our Christmas and Holiday Break! HAE believes in the gift of time, and we have three weeks during this otherwise busy season to enjoy our children and our families!

We are looking forward to our Christmas dance recital and holiday cookie exchange on the last day of school!

In January, HAE is exploring animal science with Donuts and Science. And our teachers—including classroom and home teachers, will enjoy their first In-Service Station Workshop! They will get filled up with great educational resources and personal wellness.
